About Us

Assestcoins is a platform for the future of funding that is built on top of the Bitcoin blockchain. It accelerates growth of start-up companies by offering Solutions and services that Grow Finance over time and resources.

We're working to make money better—for everyone.

Whether it's your paycheck, pension, or piggybank savings, money matters to us all. So, rather than relying on banks—with their fees, delays, and fraud risk—we stand for money without limits. That's why we support Bitcoin, a global digital currency that only you can control.

What we're doing about it

Our products make both Bitcoin Cash and Bitcoin more accessible. You can buy, use, and store Bitcoin securely, monitor market prices and news, and even earn Bitcoin through mining. We also help businesses accept Bitcoin payments and support developers building on Bitcoin.

PROTECTING INVESTORS' INTERESTS

While we are helping start-ups to raise the funds, we care about investors whose investments' protection we wish to guarantee to the maximum extent. The voting system gives the investors bigger control over their investment.
